

UNIVERSITY OF
ST. THOMAS

MASTER IN CLINICAL TRANSLATION MANAGEMENT (MCTM)

FROM BENCH TO BEDSIDE
COURSE WORK OFFERED 100% ONLINE*

MCTM is a **one-year online program** that fast-tracks its students through a rigorous curriculum and **provides a robust understanding of the biotechnology industry as well as the business, marketing, and regulatory skills necessary for a career in this field.**

Though the majority of the program is completed through online modules, students are provided ample opportunity for in-person training, networking, and professional development through the university.

** Participants of the MCTM program are required to attend three residency periods – the first in Houston, the second as part of an international study abroad program, and the final for the annual BIO International Convention.*
